

# THE TELO TE390

## LTE Handheld Device

The TELO TE390 handset with RAPID capability, is a simplified LTE handheld device for instant communication. Combined with powerful radio accessories and a long-lasting battery, the TE390 is the perfect solution for a variety of industries. Featuring an Android operating system, this intuitive device includes a dedicated Push-To-Talk button, radio design interface, and OLED screen which is readable from multiple angles.

RAPID is the next generation of instant, high-speed, and secure two-way radio communications for voice and data. It is designed and built on a revolutionary all-Australian secure protocol, Intelligent Radio Protocol (IRP®) to ensure true one-to-many communication performance. With RAPID technology the TE390 eliminates the coverage restrictions previously faced with traditional DMR/LMR PTT communications. Users can now use RAPID for both individual and group calls over cellular (3G/4G) or Wi-Fi. This unit has enhanced encryption capabilities which provide a superior level of security on transmitted messages.
